AT THE SEATTLE SCHOOL

Do you have a desire to better understand yourself and discover more fully who God has created you to be? As we delve into the narratives of our lives, we begin to recognize how our experiences have shaped us, finding healing and hope in the remarkable story that God is authoring through us.

Over the past three years, I've had the privilege of undergoing training with the renowned Allender Center, an organization that has empowered countless individuals to courageously engage with their personal stories, leading to transformational growth. Today, I'm thrilled to tell you that I will be running a 7-week story group for a small group of participants as the capstone project of my training. I would love for you to join me on this journey of self-discovery.

Our stories become clearer and more meaningful when shared within a supportive and encouraging community, and that's precisely what this group will offer. What's more, I'm excited to share that, upon registering, you will gain access to the exclusive "To Be Told" online course by the Allender Center. This course includes enlightening video teachings by Dr. Dan Allender, that will complement and enrich the work we will do in the group.
